F. Environmental Justice

In accordance with Title VI of the Civil Rights Act of 1964, each Federal agency shall ensure that all programs or activities receiving Federal financial assistance that affect human health or the environment do not directly, or through other arrangements, use criteria, methods, or practices that discriminate on the basis of race, color, or national origin. Part of Title VI reads, "No person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance."

The three fundamental environmental justice (EJ) principles are:

- To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations;
- To ensure the full and fair participation by all potentially affected communities in the transportation decision making process; and
- To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority populations and low-income populations.

The Town of Schererville is committed to these three environment justice principles in all work that the Town performs.

H. Limited English Proficiency (LEP) Policy

On August 11, 2000, the President signed an executive order, *Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiency (LEP)*, to clarify Title VI of the Civil Rights Act of 1964. It has as its purpose, to ensure meaningful access to programs and services to otherwise eligible persons who are not proficient in the English language. In addition, the US Department of Transportation published *Policy Guidance Concerning Recipients' responsibilities to Limited English Proficient Person* in the December 14, 2005 Federal Register. This guidance outlines the following four factors that the Town uses to assess the LEP populations in Schererville.

1. The number and proportion of LEP persons eligible to be served or likely to be encountered by the Town.
2. The frequency with which LEP individuals come into contact with the program, activity, or service.
3. The nature and importance of the program, activity, or service provided by the program.
4. The resources available to the Town and the costs.

Summary of the Four Factor Analysis

Factor 1 – The number and proportion of LEP persons eligible to be served or likely to be encountered by the Town:

The U.S. Census Bureau provides estimated statistics from 2024 for the Town of Schererville. The estimated population as of 2024 is 29,780 people.

The population distribution by race and ethnicity in 2010 is as follows:

- White – 75.0%
- Black or African American – 8.2%
- American Indian or Alaska Native – 0.1%
- Asian – 3.3%
- Hispanic – 15.0%

The most common language spoken besides English is Spanish with the remaining possible LEP population spread among the other language groups.
Based on the above figures, the estimated population for possible language groups are:

- White – 22,335
- Black or African American – 2441.96
- American Indian or Alaska Native - 30
- Asian - 806
- Hispanic – 3051

Factor 1: cont'd.

The U.S. Census Bureau has a range of four classifications of how well people speak English. The classifications are: "very well," "well," "not well," and "not at all." For planning purposes, the Town considers people that speak English less than "very well" as Limited English Proficient (LEP) persons. It is estimated that the majority of minorities in the community speak English well or very well or have translation availability within their own families or friends. According to American Community Survey data provided by the U.S. Census Bureau, of the population aged 5 and over, it is estimated that 1,336 individuals in Town speak English less than "very well". This figure works out to be approximately 4.4% of the Town population. Based on actual contact between Town staff and the community, there is no record of anyone in the service area within the last few years asking the Town to provide language translation services. Therefore, the LEP population is probably even fewer than the estimate shown above.

Factor 2 - The frequency with which LEP individuals come into contact with the program, activity, or service:

There have not been any recorded language translation requests nor has there been any complaints concerning discrimination regarding the LEP population known to the Town at this time.

Factor 3 – The nature and importance of the program, activity, or service provided by the program:

If at any time a LEP individual requests translation services that are considered important such that denial or delay of access to services or information could have serious or even life-threatening implications, the Town will provide, upon request, services to assist the LEP population including translation of vital Town documents and interpretation services.

Factor 4 – The resources available to the Town and costs:

The Town of Schererville is a relatively small community with limited resources so an intricate plan to accommodate LEP persons is not practical at this time. Considering the minor numbers as estimated in Factor 1 above for the LEP population, the Town plans to provide basic services upon request as discussed in Factor 3 above.

Summary of LEP Accommodation Plan

- The Town of Schererville strives to serve its population to the best of its ability and will provide upon request, services to assist with LEP population including translation of vital documents and interpretation services deemed necessary to provide meaningful access to Town services.
- A U.S. Census Bureau ISpeak card is available as part of this document and on the Town's website and is also available at Town Hall located at 10 East Joliet Street. This card allows LEP individuals to communicate their preferred language to Town Staff whereas Town Staff may then access a language translation service to accommodate the needs of the person with LEP. A translation service called Continental Languages, phone number 1-800-489-6982, is available to Town Staff and other translation services may be used as determined by the Town.
- Several Town Employees speak secondary languages and may be called upon to help with translation.
- Collect public involvement data to monitor possible LEP individuals in the community. The Town of Schererville utilizes a voluntary public involvement survey to collect information regarding persons affected by proposed projects. The survey permits respondents to remain anonymous, while voluntarily answering questions regarding their gender, ethnicity, race, age, disability status, and household income. This voluntary public involvement survey is available at all public hearing and meetings. Once the survey data has been collected, it will be reviewed and then the survey will be placed in a file for future reference. In the case enough surveys are collected over time to show a significant increase in LEP populations, the Town may consider changes to their LEP policy. Completed surveys shall be retained for a period of three years from the date of the meeting and/or completion of the related project, if applicable. See Appendix G for a sample of this survey.
- Review written Title VI complaints and ensure every effort is made to resolve complaints informally at the local or regional level and review and update the Town's Title VI plan and procedures as required.
- Staff Training – Staff for the Town of Schererville will be provided training on the requirements for providing meaningful access to services for LEP persons. Considering the relatively small size of the Town of Schererville and the estimated small number of LEP individuals in the service area and limited financial resources, current training may be limited to web access to this document and its attachments by all Town employees, a log showing the names of all employees that have been made aware of this document (sign off that they have read the document), and require that all new employees receive the same training.
- Monitor public involvement surveys and Census data to determine percentage of population who may be LEP.
