**Kennedy Avenue Project: Construction Update 10-15-26**

**Kennedy Avenue Phase 2: Oak Street to Junction Avenue**
Roadwork along the portion of Kennedy Avenue south of Junction Avenue is nearly complete and will **reopen to local traffic on October 16, 2026, by 5pm**. However, this opening will only allow for local traffic access. The roadway will **not accommodate thru traffic.**

The Town Dump will reopen on Monday October 19, 2026 at 7am.

Businesses on Kennedy Ave. north of Junction Avenue will only have access from the north via Kennedy Ave. at Main St. or via Division Street. There will be no access from the south. Residents or businesses on Junction Avenue will have access from Joliet Street to the newly realigned Junction Ave. **There is no access to north Kennedy via Junction Ave. at this time.**

Town Departments consisting of Public Works, Wastewater, and Animal Control can also be accessed by using Joliet Street to Junction Avenue. Access to these Town Departments will only be available by travelling Joliet Street to Junction Ave. **The previous entry, via Joliet Street to Kennedy Ave. north, no longer exists.**

As FH Paschen, the Town's contractor, continues working on the remainder of the project, additional Kennedy Avenue closures will occur. Future work and project updates will be posted to the Town's website and social media outlets.
