THEREUPON, Public Comments Regarding Agenda Items

Joe Konicek, President Schererville Professional Firefighters Association, stated that this in reference to Item I., Safer Grant. Mr. Konicek started off by reading off a list of names of past

members of the Schererville Fire Department, who have left the Schererville Fire Department to go to other Departments, because they were tired of working everyday with minimum staffing levels. He stated that in 2012 they had 13 full-time platoon firefighters that responded to 2,848 calls for service. He stated that the Schererville Fire Department currently has 18 full-time platoon firefighters that responded to 4,001 calls for service in 2022. He stated that is a 29% in call volume, they only have the minimum staffing requirement of six firefighters on duty, now spread out between three fire houses. He stated that currently they just responded to a structure fire with six personnel on duty. Mr. Konicek stated that what they should have on duty is no less than four firefighters at each Fire house. Mr. Konicek gave a comparison between Schererville Fire Departments and other departments.

Mr. Konicek stated that once again they brought a solution to this project using the Federal Emergency Management Agency, the Safer Grant. He stated with this program you can potentially hire three to six new full time firefighters for the department. He stated that all of the Council members received a copy of the letter they provided on why they need to follow through with, if accepted, hiring three new firefighters through the Safer Grant. Mr. Konicek explained to the Council the OSHA, two in two out rule. It states that no more than two firefighters can operate inside a burning building unless there are two other firefighters outside that building. He stated that if you only have six firefighters on duty, two are on ambulance calls and one has to sit there and operate the fire engine, which leaves three firefighters left. Who is going to put the fire out, who is going to rescue them if something would go bad, who is there to help the victims when they get pulled out. He stated that this is a daily occurrence where they are down to two firefighters sometime. Mr. Konicek spoke about the part-time firefighters and the overtime our full-time firefighters have been working. He asked the Council to consider the Safer Grant that is on the agenda this evening.

Mr. Kevin Deane, 1905 Sir Richard Road, stated that Item G., Consider extending the Families First Coronavirus Response Act. He stated that you are talking about ten days of paid leave. He stated that his research says that the CDC has changed those guidelines to five days, if you haven't had a temperature over the previous twenty-four hours you can return to work. He stated he is wondering why we are staying with the ten day limit.
