ITEM B. PUBLIC HEARING

Opening Remarks for CDBG Public Hearing – Park Projects

Mr. Schmitt read the opening remarks for the CDBG Public Hearing into the record.

Each spring, the Lake County Community Economic Development Department applies to the U.S. Department of Housing and Urban Development (HUD) for new funding through the Community Development Block Grant program (CDBG).

One of the application requirements is to hold public hearings in the communities where CDBG funding is allocated in order to obtain input from the local citizens on the proposed use(s) of the new funding. For FY2023, the Town of Schererville CDBG allocation is approximately \$122,390.00.

The most common use of CDBG funds is for infrastructure, including street reconstruction, sanitary sewers, water line extensions, storm drainage improvements, sidewalks, and projects to remove architectural barriers (handicapped access), such as curb cuts and wheelchair ramps. CDBG funds may also be used to eliminate slums and blight through demolition of unsafe buildings or other clearance activities.

CDBG funded infrastructure projects may only be done in areas where the neighborhood is at least **42%** low/modest income according to HUD guidelines. In most cases, an income survey must be done to qualify the area for funding eligibility. The income information taken by the survey is strictly confidential, and is used solely for the purpose of determining the area's eligibility for CDBG funding.

Handicapped access projects and demolition may be done anywhere in a community, without the need for area income determinations.

The public hearing is just the start of the application process for Lake County. There are a series of legal advertisements and comment periods that take place during the summer, prior to final grant approval from HUD in late August. New CDBG funding is released to the County and its entitlement communities on or around **September 1st and needs to be expended by June 15th** of the following year.

After public comment tonight, three documents need to be read and adopted: the Affirmative Action Program, Section 3 Understanding, and a Resolution authorizing the Town Executive to submit a project proposal for CDBG funding.

Final Project Applications, and supporting documentation, need to be submitted no later than **May 19, 2023** for review by Lake County.

Lake County, Indiana, Section 3 Understanding

**LAKE COUNTY, INDIANA
Section 3 Understanding**

The U.S. Department of Housing and Urban Development (HUD) issued regulations that provide the directive to creative job opportunities for low-income persons when HUD funds are expended on a construction project. These regulations are known as Section 3 policy. The purpose of the Section 3 policy is to ensure that the employment and other economic opportunities generated by Federal financial assistance for housing and community development programs shall, to the greatest extent feasible, be directed toward low and very low-income persons.

Section 3 covered projects are construction, reconstruction, conversion, or rehabilitation of housing, including reduction and abatement of lead based paint hazards, or other public construction which includes building and improvement assisted with HUD housing and community development assistance. Section 3 covered contracts do not include contracts for purchase of supplies and materials. However, whenever a contract for materials includes the installation of the materials, the contract constitutes a Section 3 covered contract.

Fund recipients and contractors must show compliance with the numerical goals set forth by the regulations. The numerical goals for new hires apply only to the number of new hires generated because of the financial assistance of the HUD programs. The numerical goals are not absolute numerical requirements. They are goals that each recipient and contractor should try to reach. The goals, if not met, do not trigger sanctions against the recipient or contractor. However, if challenged on the issue of compliance with Section 3, the recipient or contractor should be ready to demonstrate that they tried to reach these goals. The goals are as follows:

- 30% of all covered new hires for the years FY 2023

In addition, recipients and contractors are required to show compliance with the goal that at least 10% of any building trade activity, which is subcontracted, and 3% of non-building trade activity (construction management, etc.), is awarded to eligible Section 3 business concerns.

Further information regarding these requirements may be found in the Federal Regulations at 24 CFR 135 and the Lake County Section 3 Plan.

Mr. Connelly made a motion to approve the Lake County, Indiana, Section 3 Understanding and ask that the secretary incorporate the content there of into this motion, seconded by Mrs. Arvanitis. All in favor (5-0).

THEREUPON, Business from the floor

Dan Gin, Town of Schererville IT Director stated that People often think that 911 are just 3 numbers that you dial when there's an emergency. Seldom do people think about the folks on the other end of that phone call. They are call takers, public safety dispatchers, and sometimes, they are the voice giving lifesaving directions to the person on the other side of the phone call.

This week is National Public Safety Telecommunicators Week. It is held annually during the second week of April to honor those who are the voice of public safety when someone calls 911.

I'd like to take a moment to recognize the team at our very own SOUTHCOM 911 Dispatch Center for their commitment, service, and sacrifice. Over the past several years, I have had the opportunity to work alongside over a dozen of the finest 911 dispatchers out there. From firsthand experience, I can tell you that our

community is safer for having such a dedicated team of professionals.

Meeting adjourned.
