Lake Central Schools Closing for 4 Weeks

After closely monitoring the situation and consulting with the Lake County Board of Health and other Lake County school districts, we have decided to close all Lake Central Schools for the next 4 weeks beginning on Monday, March 16. Our tentative return date is Monday, April 13.

Contingency plans for providing distance learning opportunities are taking place and the first lessons will be posted for students on Wednesday, March 18. Our teachers will be using time on Monday and Tuesday to prepare to distribute student online activities.

We realize this decision will cause challenges for many of our families. It has, however, become more important for us to take this step in an attempt to diminish the number of people of all ages who get infected.

Our teachers will encourage their students to take home all materials, books etc. today. We will be sending out additional information soon about how to access distance learning through Canvas as well as how to pick up a device if needed.

We will continue to keep you updated as decisions are made and more information becomes available.

Sincerely,

Dr. Veracco
